KeyLessBox

*Wall mounting illustration*

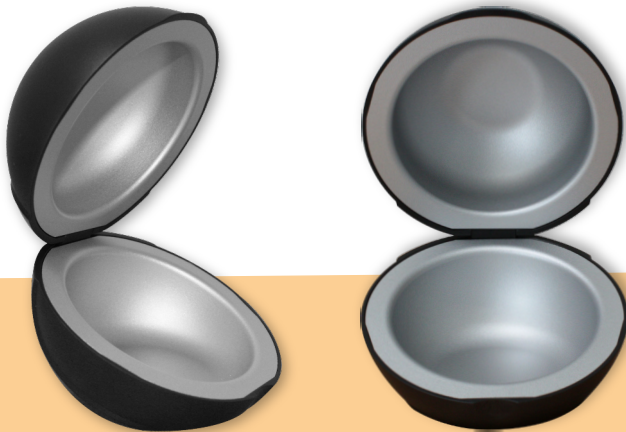

**The SUDHAUS-KeyLessBox**

So that tomorrow  
are still mobile

The SUDHAUS KeyLessBox convinces visually with a modern design.

The KeyLessBox shields the RFID signal of your KeyLess Go key and protects your vehicle from theft. This protection has been tested by an external institute.

The signal of the KeyLess Go keys has different transmission powers and ranges depending on the vehicle manufacturer. Accordingly, the protection radius around the KeyLessBox varies slightly.

... Use: at home or when travelling

... Attach to the wall or use as an eye-catcher on a table or sideboard

... For master and spare keys or the entire key ring

... Prevents unauthorised starting of your car.

... Recyclable for the sake of the environment

It is not advisable to locate the KeyLessBox in the immediate vicinity of your vehicle.

**Prevents unauthorised engine start**
